CHECKING & FINISHING

- Finishing Department is equipped with 8 Nos of Pressing tables from Ramsons with steam facility and Needle Detector from Easement.
- All the garments produced are thoroughly, diligently checked and controlled for its quality at every stage of manufacturing. Particularly before finishing, bulk garments are properly inspected by a team of technically qualified quality controllers and only passed goods are taken up for pressing.

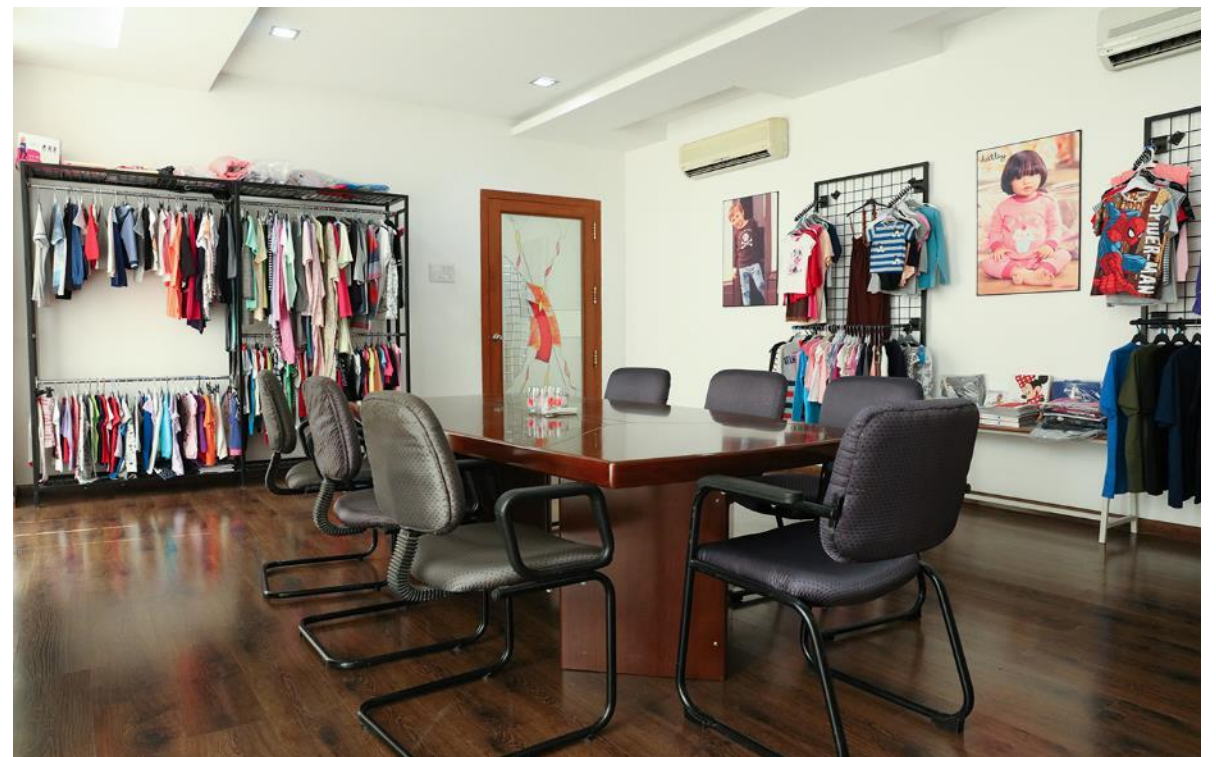

QUALITY CONTROL

(METAL DEDUCTION & PACKING)

- Right from the bulk fabric receipt, quality control department comes into action.
- In housed fabric is properly inspected as per 4 point system and only passed lots are allowed for cutting. Cut panels are piece, bundle marked to assist keen tracking of garments in production. Under the keen monitoring of our in line quality controllers garments are bulk produced with great care. All the garments produced are thoroughly, carefully checked by our checker team.
- Each and every garment is meticulously passed through needle detector for any hazardous metal contamination.
- Only after passing out from the detector bulk garments are allowed for packing. Our well trained and experienced quality control team takes care of quality at every stage and in particular after their final audit only goods are offered for any external audit.

CORRECTIVE ACTION PLAN ACKNOWLEDGEMENT REPORT

The Corrective Action Plan Acknowledgement Report (CAPAR) will be used to summarize the preliminary facility audit findings and a draft corrective action plan that both the auditor and the facility representative believe is reasonable to ensure conformity with the Disney Code of Conduct for Manufacturers (Disney Code of Conduct) and applicable local laws.

The form should be used in the following manner:

- Document preliminary facility audit findings on the form below prior to the closing meeting;
- Then use the form as an agenda during the closing meeting;
- During the closing meeting, explain the preliminary facility audit findings with the facility representative;
- Document the corrective action plan;
- Both auditor and facility representative should sign and date the form.

Please leave one copy of the CAPAR with the facility representative and retain one copy with the working papers.

OEKO-TEX®
CONFIDENCE IN TEXTILES

CERTIFICATE

The company

Madhura Gaarments
37 Rve Nagar, Kangayam Main Road
Tirupur
641604 Tamilnadu, INDIA

is granted authorisation according to STANDARD 100 by OEKO-TEX® to use the STANDARD 100 by OEKO-TEX® mark, based on our test report 47487

for the following articles:

All type of knitted garments (babies, girls, boys, ladies and men) made of 100% cotton, cotton/elastane, cotton/viscose, cotton/polyester and cotton/viscose/polyester in white, yarn dyed melange, solid dyed (cotton and cotton/elastane only), pigment and reactive printed (cotton and cotton/elastane only) and finished. Including accessories: heat transfer printed stickers, woven and printed labels, sewing and embroidery threads, elastics, zippers and metal accessories. Based on pre-certified materials according to STANDARD 100 by OEKO-TEX®.

The results of the inspection made according to STANDARD 100 by OEKO-TEX®, Appendix 4, **product class** I have shown that the above mentioned goods meet the human-ecological requirements of the STANDARD 100 by OEKO-TEX® presently established in Appendix 4 for baby articles.

The certified articles fulfil requirements of Annex XVII of REACH (incl. the use of azo colourants, nickel release, etc.) as well as the American requirement regarding total content of lead in children's articles (CPSIA; with the exception of accessories made from glass).

The holder of the certificate, who has issued a conformity declaration according to ISO 17050-1, is under an obligation to use the STANDARD 100 by OEKO-TEX® mark only in conjunction with products that conform with the sample initially tested. The conformity is verified by audits.

The certificate 11-38131 is valid until 09.01.2019
